

Sude Erdagi

About Me

I am a dedicated and passionate software developer with a strong background in Swift, React Native, and Java. Over the years, I have honed my skills in Swift, creating robust and efficient applications. My experience with React Native has allowed me to build cross-platform mobile apps, and I have also gained significant expertise in Java, developing solutions that are scalable and efficient. I am constantly seeking new challenges and opportunities to expand my technical knowledge and apply my skills in real-world projects.

Siemens Power System Software
Test Engineer (FT)
• 05348733550

Experience

RoofStacks (03.2024 - 12.2024)

- Mobile App Development

Freelance Web and Mobile App Developer

As a freelance developer, I have successfully completed various web and mobile application development projects for clients in diverse industries. My work includes designing and developing custom websites using modern web technologies, as well as building mobile applications using Flutter for both Android and iOS platforms. I have collaborated with clients to understand their needs, ensuring that projects are delivered on time and meet the highest standards of quality. Through these freelance projects, I have gained extensive experience in full-stack web development and cross-platform mobile app development, while enhancing my problem-solving and client communication skills.

Projects

- YETIS -Yetis is a platform that enables highly skilled professionals in niche industries to connect and discover new business opportunities. I worked as an Application Developer on this project, where I developed the iOS mobile application using Swift and contributed to the mobile version of the platform built with React Native and Expo. My responsibilities included optimizing the iOS app for better performance, implementing features that facilitate seamless communication between users, and ensuring a user-friendly interface to enhance the overall professional networking experience. This project allowed me to apply my skills in both native iOS development and cross-platform mobile development, with a focus on delivering an intuitive and efficient user experience.

Skill Highlights

- Strong Communication
- Full-stack coding
- Complex problem solver
- Innovative
